the meteorological magazine

1968 Volume 97

INDEX

	Pages		Pages
January	1–32	July	193–224
February	33–64	August	225–256
March	65–96	September	257–288
April	97–128	October	289–320
May	129–160	November	321–352
June	161–192	December	353–384

Address by Sir Joseph Hutchinson; L. P. Smith, 255

Atkins, J. E.; Changes in the visibility characteristics at Manchester/Ringway Airport, 172

Automatic weather stations for Australia; E. Saunders, 223

Axford, D. N.; An example of a vector error distribution derived from a routine upper wind forecasting test, 361

Back issues of Meteorological Magazine, 160

Barrow, C. D.; *obituary*, 94

Bird, L. G. and Rider, N. E.; Laser cloud-base recorder, 107, *photographs between* 112, 113

Boyden, C. J.; *retirement*, 223

Bradbury, N.; Retirement of Mr T. W. V. Jones, I.S.O., 126

Briggs, J.; Estimating the duration of high-intensity rainfall, 289

Browning, K. A., Harrold, T. W. and Nicholls, J. M.; Rapid changes in the height of the melting layer, 327

Bryant, D.; An investigation into the response of thermometer screens — the effect of wind speed on the lag time, 183, *corrigenda*, 256

Changes in air temperature at Manchester/Ringway Airport; E. N. Lawrence, 43

Changes in the visibility characteristics at Manchester/Ringway Airport; J. E. Atkins, 172

Clark, D. J.; Pressure jump lines in the Persian Gulf, 368

Climatology of noctilucent clouds according to observations made from North America during 1964–66; B. Fogle, 193

Collins, B. G.; A modified Campbell-Stokes sunshine recorder, 16

Comparison of effective temperatures at Bahrain and Sharjah; G. A. Watt, 310

Comparison of methods of forecasting night-minimum temperatures; J. Gordon and S. E. Virgo, 161

Corfield, G. A. and Newton, W. G.; A recent change in visibility characteristics at Finningley, 204

Corless, R.; *obituary*, 64

Cornford, S. G.; Fluctuations of temperature and humidity in clear air over the North Sea around sunset on a winter's day, 353

Cornford, S. G.; Sampling errors in measurements of particle size distributions, 12

De la Mothe, P. D.; Middle latitude wavelength variations at 500 mb, 000

Development of low-level midday air temperature inversions; E. N. Lawrence, 270

Dinsdale, F. E.; Fog frequencies at inland stations, 314

Diurnal range of temperature in Scottish glens; N. Thompson, *letter*, 124

Diurnal variation of the sea-breeze at three stations in north-east Scotland; D. S. Gill, 19

Duckham, A. N.; Weather and agriculture (edited by J. A. Taylor), *review*, 93

Ebdon, R. A.; Lower stratospheric wind and temperature distributions, 97

Eighteenth Century series of observations from Fort Prince of Wales, Canada; Meteorological Branch, Department of Transport, Canada, 190, *photograph between* 176, 177

Estimated soil moisture deficits over Great Britain; *official publication*, 31

Estimating the duration of high-intensity rainfall; J. Briggs, 289

Estimation of monthly mean wind speeds; G. Lupton, 58

Example of a vector error distribution derived from a routine upper wind forecasting test; D. N. Axford, 361

Exceptionally heavy rainfall in July 1968; P. R. S. Salter, 372

Fluctuations of temperature and humidity in clear air over the North Sea around sunset on a winter's day ; S. G. Cornford, 353

Fog frequencies at inland stations; F. E. Dinsdale, 314

Fogle, B.; The climatology of noctilucent clouds according to observations made from North America during 1964–66, 193

Foord, H. V.; An index of comfort for London, 282

Forecasting large 24-hour rainfall totals in the Dee and Clwyd River Authority area from September to February; C. A. S. Lowndes, 226

Forecasting monthly rainfall for England and Wales; R. A. S. Ratcliffe, 258

Forecasting wet spells in south-east England; R. A. S. Ratcliffe and A. E. Parker, 1

Freeman, M. H.; A general-purpose computer-programme for statistical work, 209

Freeman, M. H.; The role of numerical forecasts in the provision of meteorological information for civil aviation at London/Heathrow Airport, 177
Freeman, M. H.; Visibility statistics for London/Heathrow Airport, 214
Frost damage to a brick wall; *photograph facing* 337

General-purpose computer-programme for statistical work; M. H. Freeman, 209
Gill, D. S.; The diurnal variation of the sea-breeze at three stations in north-east Scotland, 19
Gloyne, R. W.; Mikroklimatologie: Mikroklima der bodennahen Atmosphäre (D. Berenyi), *review*, 30
Goldsmith, P.; Theory of fog condensation (A. G. Amelin), *review*, 380
Gordon, J. and Virgo, S. E.; Comparison of methods of forecasting night-minimum temperatures, 161
Groves (L. G.) Memorial Prizes and Awards; 62, *photographs between* 48, 49

Hail damage to aircraft; 222, *photographs between* 208, 209
Harding, J.; 'Deserts', the problem of water in arid lands (Martin Simons), *review*, 220
Harding, J.; Retirement of Mr C. J. Boyden, 223
Harrold, T. W., Browning, K. A. and Nicholls, J. M.; Rapid changes in the height of the melting layer, 327
Hay, R. F. M.; Relationships between autumn rainfall and winter temperatures, 278
Hay, R. F. M.; Relations between summer and September temperature anomalies in central England, 76
Hide, R.; The theory of rotating fluids (H. P. Greenspan), *review*, 317
Houghton, D. M.; Viewing weather from space (E. C. Barrett), *review*, 121
Hundred years of meteorology at Shoeburyness; A. Scragg, 115
Hurst, G. W.; Training seminar on agricultural meteorology, Wageningen, Holland, May 1968, 319

Index of comfort for London; H. V. Foord, 282
Interaction between the oceans and the atmosphere; N. Thompson, *lecture by* Professor M. J. Lighthill, 90
International Conference on Aeronautical Meteorology, 221
International Symposium on Floods and their Computation, 15–22 August 1967, Leningrad; F. Singleton, 60
Investigation into the response of thermometer screens — the effect of wind speed on the lag time; D. Bryant, 183, *corrigenda*, 256
Investigation of some physical processes associated with the vertical flow of heat through the upper ocean; J. D. Woods, 65, *photographs between* 80, 81
Ireson, W. H.; *obituary*, 32

Jones, R. F.; Atmospheric electricity (J. Alan Chalmers), *review*, 351
Jones, T. W. V., I.S.O.; *retirement*, 126

Keers, J. F.; Processes of coastal development (V. P. Zenkovitch), *review*, 120
Knighting, E.; The Environmental Science Services Administration (Roy Popkin) *review*, 381
Knighting, E.; An introduction to fluid dynamics (G. K. Batchelor), *review*, 219
Kuhn, W.; Snow cylinders at Geltwil, Switzerland, 350, *photographs between* 336, 337

Lamb, H. H.; Water, weather and prehistory (R. Raikes), *review*, 92
Laser cloud-base recorder; L. G. Bird and N. E. Rider, 107, *photographs between* 112, 113
Lawrence, E. N.; Changes in air temperature at Manchester/Ringway Airport, 43
Lawrence, E. N.; The development of low-level midday air temperature inversions, 270
Lockwood, J. G.; Some uses of profiles and charts of total energy content, 145
London weather; *official publication*, 320
Lower stratospheric wind and temperature distributions; R. A. Ebdon, 97
Lowndes, C. A. S.; Forecasting large 24-hour rainfall totals in the Dee and Clwyd River Authority area from September to February, 226
Lupton, G.; Estimation of monthly mean wind speeds, 58

McFarlane, D. and Smith, C. G.; Remarkable rainfall in Oxford, 235
Menmuir, P. and Tinney, E. B.; Results of an investigation into forecasting night-minimum screen temperatures, 165, *corrigendum*, 256
Method of reducing observing and procedure bias in wind-direction frequencies; C. E. Wallington, 293
Middle-latitude wavelength variations at 500 mb; P. D. de la Mothe, 333
Modified Campbell-Stokes sunshine recorder; B. G. Collins, 16
Murray, R.; On certain large-scale synoptic features of the summer over the British Isles and the autumn temperature in central England and autumn rainfall over England and Wales, 321
Murray, R.; Sequences in monthly rainfall over Scotland, 181
Murray, R.; Some associations between monthly rainfall over England and Wales and central England temperatures, 141
Murray, R.; Some predictive relationships concerning seasonal rainfall over England and Wales and seasonal temperatures in central England, 303, *corrigendum*, 383

New rainfall map for the twentieth century; *official publication*, 95
Newton, W. G. and Corfield, G. A.; A recent change in visibility characteristics at Finningley, 204
Nicholls, J. M., Harrold, T. W. and Browning, K. A.; Rapid changes in the height of the melting layer, 327
Noctilucent clouds over western Europe during 1967; J. Paton, 174, *photographs facing* 176

Note on thermals observed between 300 and 900 metres altitude at Cardington, Bedfordshire; G. W. Paltridge, 56

On certain large-scale synoptic features of the summer over the British Isles and the autumn temperature in central England and autumn rainfall over England and Wales; R. Murray, 321

Pacific satellite meteorology seminar, 1967; P. G. Rackliff, 72

Paltridge, G. W.; A note on thermals observed between 300 and 900 metres altitude at Cardington, Bedfordshire, 56

Parker, A. E.; Some notes on baroclinic instability, 340

Parker, A. E. and Ratcliffe, R. A. S.; Forecasting wet spells in south-east England, 1

Part of the Australian computer system; *photograph facing* 336

Paton, J.; Noctilucent clouds over western Europe during 1967, 174, *photographs facing* 176

Perry, A.; Turbulent heat flux patterns over the North Atlantic during some recent winter months, 246

Perry, J. D.; Sea temperatures at OWS 'I', 33, *photographs facing* 48, 49

Pilsbury, R. K.; Cloud studies in colour (R. Scorer and the late H. Wexler), *review*, 286

Pressure jump lines in the Persian Gulf; D. J. Clark, 368

Rackham, O.; Luftverunreinigung und Stadtklima im Rheinisch-Westfälischen Industriegebiet und ihre Auswirkung auf den Flechtenbewuchs der Bäume (M. Domrös), *review*, 122

Rackliff, P. G.; Pacific satellite meteorology seminar, 1967, 72

Rapid changes in the height of the melting layer; T. W. Harrold, K. A. Browning and J. M. Nicholls, 327

Ratcliffe, R. A. S.; Forecasting monthly rainfall for England and Wales, 258

Ratcliffe, R. A. S. and Parker, A. E.; Forecasting wet spells in south-east England, 1

Recent change in visibility characteristics at Finningley; G. A. Corfield and W. G. Newton, 204

RECENT PUBLICATIONS

Meteorological problems in the design and operation of supersonic aircraft; R. F. Jones, R. M. McInturff and S. Teweles, WMO Technical Note No. 89, 159

Polar Meteorology, WMO Technical Note No. 87, Proceedings of the WMO/SCAR/ICPM Symposium on Polar Meteorology Geneva; 5–9 September 1966, 157

U.S. Standard Atmosphere Supplements, 1966; Sponsors: ESSA, NASA and U.S. Air Force, 158

Reed, F. V.; Magyarország Éghajlati Atlasza, II, Kötet, Adattár. Klima Atlas von Ungarn, Band II, Tabellen (Akadémiai Kiadó), *review*, 156

Relationships between autumn rainfall and winter temperatures; R. F. M. Hay, 278

Relations between summer and September temperature anomalies in central England; R. F. M. Hay, 76

Remarkable rainfall in Oxford; D. McFarlane and C. G. Smith, 235

Results of an investigation into forecasting night-minimum screen temperatures; E. B. Tinney and P. Menmuir, 165, *corrigendum* 256

RETIREMENTS

Boyden, C. J.; 223

Jones, T. W. V., I.S.O.; 126

Robinson, G. D.; 257

REVIEWS

Atmosphere, weather and climate, (R. G. Barry and R. J. Chorley); *review* by S. E. Virgo, 156

Atmospheric electricity (J. Alan Chalmers); *review* by R. F. Jones, 351

Cloud studies in colour (R. Scorer and the late H. Wexler); *review* by R. K. Pilsbury, 286

'Deserts', the problem of water in arid lands (Martin Simons); *review* by J. Harding, 220

Environmental Science Services Administration (Roy Popkin); *review* by E. Knighting, 381

Introduction to fluid dynamics (G. K. Batchelor); *review* by E. Knighting, 219

Luftverunreinigung und Stadtklima im Rheinisch-Westfälischen Industriegebiet und ihre Auswirkung auf den Flechtenbewuchs der Bäume (M. Domrös); *review* by O. Rackham, 122

Magyarország Éghajlati Atlasza, II, Kötet, Adattár. Klima Atlas von Ungarn, Band II, Tabellen (Akadémiai Kiadó); *review* by F. V. Reed, 156

Mikroklimatologie: Mikroklima der bodennahen Atmosphäre, (D. Berenyi); *review* by R. W. Gloyne, *corrigendum* 126

Processes of coastal development (V. P. Zenkovitch); *review* by J. F. Keers, 120

Theory of fog condensation (A. G. Amelin); *review* by P. Goldsmith, 380

Theory of rotating fluids (H. P. Greenspan); *review* by R. Hide, 317

Viewing weather from space (E. C. Barrett); *review* by D. M. Houghton, 121

Water, weather and prehistory (R. Raikes); *review* by H. H. Lamb, 92

Weather and agriculture (edited by J. A. Taylor); *review* by A. N. Duckham, 93

Rider, N. E. and Bird, L. G.; Laser cloud-base recorder, 107, *photographs between* 112, 113

Rider, G. C. and Simpson, J. E.; Two crossing fronts on radar, 24, *photographs between* 16, 17

Role of numerical forecasts in the provision of meteorological information for civil aviation at London/Heathrow Airport; M. H. Freeman, 177
Runway visual range at United Kingdom airports; D. P. Smith, 51

Salter, P. R. S.; An exceptionally heavy rainfall in July 1968, 372
Sampling errors in measurements of particle size distributions; S. G. Cornford, 12
Saunders, E.; Automatic weather stations for Australia, 223
